PIERRE LEMÉE // SOFTWARE ENGINEER

MALE // 37 YO // FRENCH

INTRO

I build web apps the you play Lego ©, tech being an endless box with infinite pieces and possibilities without limit.
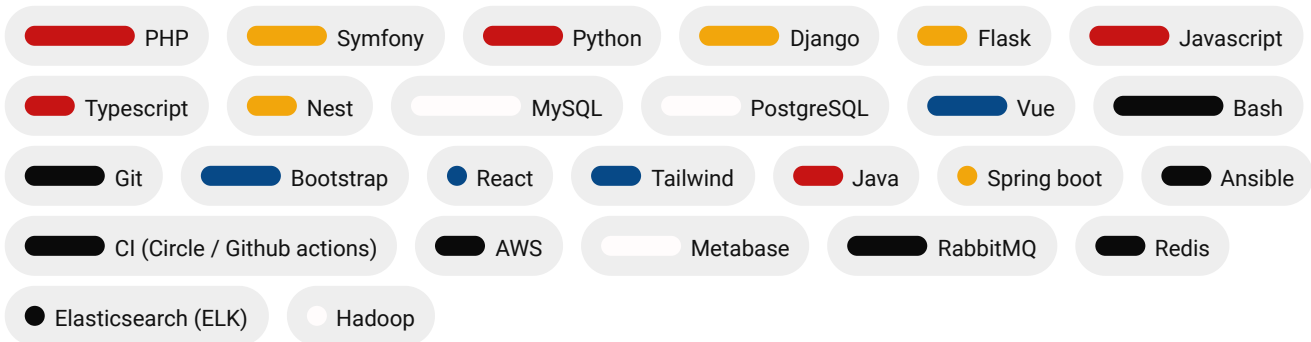

Code is my passion, I like the creativity required by this craftsmanship job. Even after 10+ years of work, I keep learning on a daily basis. Nevertheless, I keep following philosophies like egoless programming or boring tech.

I have a versatile profile, halfway between senior developer, devops or data engineer. I've been a CTO and a manager for several years, but today I aspire ot contribute by writing code. I would like to strengthen my knowledge of the NestJS framework, but I'm adaptable to many different tech stacks.
TECH

Here are the technologies I'm confident with:

PHP · Symfony · Python · Django · Flask · Javascript
Typescript · Nest · MySQL · PostgreSQL · Vue · Bash
Git · Bootstrap · React · Tailwind · Java · Spring boot · Ansible
CI (Circle / Github actions) · AWS · Metabase · RabbitMQ · Redis
Elasticsearch (ELK) · Hadoop

PROFESSIONAL EXPERIENCE
BETA.GOUV & UNDERDOG

DEVELOPER // 2022 - 2023

Intervened as freelance developer for a French State startup APiLos in order to migrate data from the historical platform.
I also created automation tools for the startup **Underdog**, via the NestJS framework.

Python · Django · Typescript · Nest · PostgreSQL · Vue
Git · CI (Circle / Github actions) · Metabase · Redis

IGNITION PROGRAM

CTO // 2020 - 2022

I managed the tech team of**Ignition Program** which grew to 10 people under my command. After a year of rewriting the historical codebase, I worked on improving processes toward a much more performing product structure via setup of empowered squads.
Python · Django · Javascript · PostgreSQL · Vue · Git
Ansible · CI (Circle / Github actions) · Metabase · AWS

BLOOM AT WORK (LUCCA)

CTO // 2018 - 2020

My first mission was to convert the MVP tool, first used for internal needs at *My Little Paris* to a fast, efficient and scalable B2B app for **Bloom at Work**.
I then staffed my development team and setup first processes aiming to satisfy user expectations and reach the startup goals and ambitions.

PHP · Symfony · Javascript · MySQL · Git · React · Ansible · CI (Circle / Github actions) · AWS · Metabase · RabbitMQ · Redis

BILLOGRAM (🇸🇪)

DEVELOPER / DEVOPS // 2017

In 2017, I lived in Sweden where I had the chance to join **Billogram** and its *platform team*.

I worked both on code and infrastructure sides.

PHP · Python · Flask · Javascript · MySQL · Bash · Git · CI (Circle / Github actions) · Redis

SENSCRITIQUE

CTO // 2016

My first CTO role was at **Sesncritique**

I setup right processes to allow tech team to lead long term projects, like mobile app creation, and treat recurring fastlane requests. I also had to make server infrastructure evolve (bare metal) to make the app scale with our users number.
PHP · Java · Spring boot > Javascript · MySQL · Bash · Git · CI (Circle / Github actions) · Redis

BLABLACAR

DEVELOPER // 2014- 2016

I had the privilege to join the tech champion and carpooling leader: **BlaBlaCar**.

I first worked on developing new features on the web app, before forming a team dedicated to create a scaling big data platform for analytical needs.
PHP · Symfony · Javascript · MySQL · Bash · Git · Bootstrap · Java · CI (Circle / Github actions) · RabbitMQ · Redis · Elasticsearch (ELK) · Hadoop

ALTRAN (CAPGEMINI)

DEVELOPER // 2013- 2014

I was a consulting developer for Gemalto and a projet of contact less payment.

My responsibility was to write J2EE code as well as ensuring system integration.

MySQL · Bash · Java

THALÈS ALENIA SPACE

DEVELOPER // 2011- 2013

During my apprenticeship, I developed and maintained a Java based simulation environment for high resolution satellite images generation.

Bash · Java

DIVERS

Beside my maternal language, French obviously, I speak a fluent **English**, I could attend a conversation in Spanish and can identify words in **Italian**, **German** or **Swedish**.

On my spare time I like watching films et TV shows. Whenever I can I listen to music (mostly electronic, ambient, rock and jazz) on my vintage turn table. I play **golf** and I strive to run regularly.

I like to taste a good wine, beer or whisky, or play *mots fléchés* (french equivalent of crossword puzzles), I even made an app for this.

I currently live in Nantes after 10 years in Paris. I'm the proud daddy of a young girl.

SCHOOLING

SOFTWARE ENGINEER

CFA AFTI (ORSAY) // 2013

This cursus taught me technics of software engineering. Beyond simple coding base, I learned methods for leading IT projects.

LICENCE INFORMATIQUE

UNIVERSITÉ OF CAEN // 2009

During this licence, I formed the baseline of my technical knowledge: code discovery, algorithms, web technologies, database & SQL, systems and networks
